

Basket Makeover DIY

Have fun with this! The instructions below are a simple guideline, but there are dozens of ways to paint a basket.

Items Needed:

Basket

Two paint colors (we used chalk paint because of its thick consistency, which makes it less likely to run)

Paint brush and foam angled paint brush

Painter's tape or duct tape

Instructions:

1. Wrap painter's tape or duct tape evenly around the basket.
2. Using the paint brush, lightly paint the unmasked area one color.
3. Remove masking tape.
4. Using the foam angled paint brush, paint the masked area, making sure to reach any crevices.
5. Let dry thoroughly and enjoy.

Note: If you want a more rustic look, use sandpaper to lightly remove paint where you desire.
