

DIY Masterpiece

You will need:

Framed print

Acrylic paints of your choice

Paint brushes

Paint palette (you could also use foil or wax paper)

Instructions:

1. Remove the backing, print and glass from the frame. Discard the glass.
2. Using the original art as a guide, paint the print as you wish and let dry.
3. Return print to the frame and replace the backing.

Note: We decided to also paint our frame, using spray paint.

EveryStep Giving Tree has a large selection of framed prints that can be used for this project.
