

Vintage Chair Makeover DIY

Items needed:

Fabric
Chalk paint
Foam brushes
Fiber fill
Stencils
Staple Gun
Screwdriver

Instructions:

- 1. Using a screwdriver, remove the screws holding the seat to the frame. Set the seat aside.**
- 2. Paint the chair frame desired color. Two coats are recommended.**
- 3. In between coats and while the paint is drying, attach fiber fill over the original seat, using a staple gun.**
- 4. Attach fabric over the fiber fill, using the same technique.**
- 5. When paint is dry, if desired, dab in stencils. Let dry.**
- 6. Re-attach seat with original screws, or if needed, longer screws to accommodate the extra padding.**
- 7. If desired, brush a light coat of transparent sealer over the painted areas of the chair.**
